Objective

I am a passionate and dedicated postgraduate student currently pursuing MCS, with a solid foundation in web development technologies. I am eager to apply my skills in real-world projects, contribute to meaningful solutions, and grow as a full-stack developer.

Education

Master of Computer Science (MCS) – Pursuing
[Savitribai Phule Pune University], Pune

Bachelor of Computer Science (BCS) [Savitribai
Phule Pune University], Pune

Technical Skills

• Frontend : HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS

• Backend : Node.js, Express.js

• Database : Supabase, PostgreSQL, MongoDB

• Languages **:** C, Java

• Tools : Git, GitHub, VS Code, Render, Netlify

Experience

Pronttera
Frontend Engineer Intern   July 2025 – October 2025

- Developed and maintained responsive web pages using **React.js, JavaScript, HTML, CSS, and Tailwind CSS**.

- Worked on building and styling interactive forms using **Formik** and **Material UI (MUI)** for better validation and user experience.

- Learned and implemented **Next.js** concepts to improve routing and performance in React projects.
- Contributed to **ZeroX Cloud** and **Prestige Sanitation** projects, ensuring professional and user-friendly layouts.
- 🔗**Prestige Sanitation Live Project :** https://prestige-sanitations.onrender.com/

- Collaborated with the team for UI improvements, debugging, and deployment.
- Used **Git and GitHub** for version control and code collaboration.
- **Received a Letter of Recommendation** from Pronttera for excellent performance and contribution during the internship.

Projects

1. <u>Full-Stack Portfolio CMS</u> (Full Stack)

- Built both **frontend and backend** for a portfolio CMS system.

- Backend created using **Node.js**, **Express**, and **Supabase** (for Auth, Database, File Storage).

- Implemented user login, secure API routes, and dynamic content updates.

- Demonstrates complete **full-stack development skills**.

- Deployed live at: https://i-am-mahek-shaikh-portfolio.onrender.com

2. <u>Pokemon API</u> (React)

- Developed a Pokémon search app using React that fetches and displays real-time data via the PokéAPI.
- Implemented custom hooks, API services, search functionality, and responsive UI using TailwindCSS.

Strengths

• Quick learner and problem solver

• Team player with strong communication skills

• Passionate about building responsive, user-friendly web interfaces
